

To Our Valued Clients,

Maypole's mission statement from the beginning has been our unwavering commitment to creating a positive environmental impact on our local community. In these trying times, where our city is faced with an environmental concern of global proportions, Maypole is drawing against its years of experience in this field.

As the world and New York City deals with the concerns regarding the spread of Coronavirus (COVID-19), it is of utmost importance that we continue to follow the advice and recommendations put forth to us by the NYS DOH, CDC, and the City of New York. Over the past weeks, we have had multiple meetings concerning awareness and protection in respect to the virus. I would like to personally assure you that Maypole is doing our part to prevent the spread of the virus and support the health and well-being of our customers, employees, and our community.

At this time we are still able to offer many of our services that you have come to rely on. However, we will be taking extra precautions over the coming weeks as we navigate through the developments of this virus.

Our inspectors have been given specific procedures to follow when entering your home or business which include but are not limited to:

- Using hand sanitizer upon entry and exit of a job site
- Eliminating contact
- Practicing social distancing
- Requesting on-line payments
- Monitoring his or her health closely and remaining home if sick

Maypole asks you to help us minimize the spread of the virus by cancelling or postponing your appointment if you or anyone close to you is symptomatic of COVID-19, including such symptoms as fever, cough, and shortness of breath

New Yorkers are notoriously resilient and I am confident we will get through these trying circumstances together as a community.

We will continue to take measures related to this as necessary, and as always, we greatly appreciate your business and wish you well. If you have any questions along the way please don't hesitate to reach out to us.

Sincerely,

Kicki Witt
CEO
